

***Ada Music Boosters to Use Legacy Financial
for Billing and Collection of Ada Music Dept. Student Fees
Beginning July 1, 2014***

Legacy Financial, of Lexington, KY, was founded with a single purpose: to simplify group finances. The company works with member-based organizations all over the country to increase their cash flow and streamline operations.

Legacy Financial provides an online platform where members can pay organizational dues or charges online, using a credit card, electronic check, or ACH debit, or, by sending a check through the mail. The company provides the organization's treasurer with a reporting and management dashboard which enables him to promptly see payments received and to adapt appropriate financial strategies. In addition, the company will e-mail statements to families on a monthly basis, in order to provide timely information and to offer a monthly payment plan for those who wish to take advantage of such a convenience.

Because the software is Web based, there are no downloads or costly upgrades, which makes the program very affordable for the organization. It also allows families to access their account from anywhere, 24 hours a day.

Legacy Financial provides billing, payment, and reporting solutions, through their proprietary technology, so organizations can manage their accounts receivable, accounts payable, invoicing, and reporting more efficiently and effectively. With their user-friendly billing and payment system, families can easily login to the site and view all of their pending and paid charges with the simple click of a button. With their customizable billing options and accessible payment system, Legacy makes it easy for the boosters to bill and even easier for families to pay. Legacy's simple, straightforward approach to dues management is a win-win situation for everyone involved.

How it works:

- Around-the-clock viewing and payment of bills. Families have the freedom to pay on their own time, 24-hours-a-day, seven days a week.
- Flexible payment options. Families have their choice of payment by all major credit cards, e-checks, automatic ACH debits, or, by mailing a check.
- Customizable billing options. Organization administrators can edit charges and send customized bills to the parent(s) using any e-mail address(es) desired.
- Balances in real time. Through the administrative dashboard, the organization is able to view real-time balances on member accounts and programming budgets.
- Patron/Alumni donations and ticketing capabilities. We can start to accept credit card donations through our Web site for our annual Patron membership drive, and, also, eventually, sell concert or musical tickets online to members of the community.

Legacy Financial has a proven track record when it comes to effective, efficient member invoicing and collection. The Ada Music Boosters are pleased and proud to be able to offer this modern method of billing and payments as a convenience to our member families.
